Local CPD Acquires “Green Design” Accreditation

CHATTANOOGA, Tennessee, March 17, 2008 -- Jason E. Bell, a Certified Plumbing Designer with Advanced Energy Engineering & Design, Inc. has been designated as a Leadership in Energy and Environmental Design Accredited Professional (LEED-AP) by the United States Green Building Council (USGBC).

The Leadership in Energy and Environmental Design (LEED) Green Building Rating System is a voluntary, consensus-based national rating system for developing high-performance, sustainable buildings. LEED addresses all building types and emphasizes state-of-the-art strategies in five areas: sustainable site development, water savings, energy efficiency, materials and resources selection, and indoor environmental quality.

Mr. Bell becomes AEED's third LEED-AP on staff. Celebrating its seventh year in business, AEED, Inc is one of the area's leading consulting engineering firms and currently has two other LEED-APs on staff. AEED, Inc. has been involved in several LEED projects in Chattanooga, including Two North Shore on Manufacturers Road and Northwest Georgia Bank.

AEED, Inc's offices are located at 408 McCallie Avenue.
